Module 1:

About the Building Industry Management System (BIMS)

Module 1: About NBRB and BIMS

This Module will focus on:

- About NBRB
- About BIMS
- Role of BIMS
- The BIMS Stake holders
- Role of the user manual

1.1 About NBRB

The Government of Uganda (hereafter GOU) through the Ministry of Works and Transport enacted the Building Control Act, 2013 in a bid to “Consolidate, harmonize and amend the law relating to erection of building, to provide for building standards; to establish a National Building Review Board (hereafter NBRB) and Building Committees; to promote and ensure planned decent and safe building structures that are developed in harmony with the environment and for other related matters”.

The National Building Review Board (NBRB) was established to monitor all building developments, determine the fees to be charged by the urban and district building committees for approval of plans, issue building permits and occupation permits and hear and determine appeals from persons dissatisfied with the decisions of the Building Committee, among others.

1.2 About BIMS

What is BIMS? - BIMS – is an acronym for Building Industry Management System which is a web-based interactive application/tool that avails all those intending to apply for building related services a simple interface to facilitate the process.

1.3 Role of BIMS

BIMS Creates a simple, reliable fast and effective way to apply, follow up and process building permits across Uganda. It's a Government of Uganda (GOU) eService through a collaborative effort between the National Building Review Board (NBRB) and the National Information Technology Authority Uganda (NITA-U) to reduce delays and improve efficiency and effectiveness of the building control process.

1.4 The BIMS stakeholders

The manual is aimed at providing guidance to every intending developer that would like to apply for a building permit, building committees across the country and staff at the National Building Review Board.

No.	Stakeholder Category	Activity on the BIMS
1	Citizens/Applicants	<ul style="list-style-type: none">• Account creation• Building Permit Applications• Appeals Applications• Notice of construction commencement• Request for routine inspections• Occupation permit applications

2.1 How to access BIMS

This system is web based and accessed through the link bims.go.ug over a web browser. The system can be accessed over the computer and mobile devices to ease the application process for everyone.

When the link to the system is opened, it gives the user three options

National Building Industry Management System (BIMS)

Please sign in to continue.

Username OR Email Address

Password

[Forgot password?](#)

 SIGN IN

OR

 Create An Account

 [Click here to submit any tips, complaints or reports](#)

- i. Login: This option is for returning users who have already created user accounts on the system. The user will be required to enter their username and password to be able to access the system and their account profile.
- ii. Create Account: This Option is available for first time users of the system and allows the user to create an account on the system.
- iii. Submit any tips, complaints or reports: This option enables users to submit any comments without necessarily creating accounts.

2.2 Creating Accounts

Before using the system, a user is required to create an account on the system. This is to help the new users access the system and help on record tracking. Creating an account is a one-time option after which the user will have to login whenever they want to access the system with ease. Password created should be at least 8 characters long with one upper case, number and special character. Below is an illustration of information that is captured to help one create a user account;

National Building Industry Management System (BIMS)

Please ensure to enter only correct and accurate information about your self.

The applicant/developer should be the owner of the land

Please indicate legal status of applicant *

Select Appropriate Legal Status

Password *

Re-Type Password *

Password should be at least 8 characters in length and should include at least one upper case letter, one number, and one special character

 Create Account

- **Legal status:** This is a drop down option where a user selects either Individual or company or Government entity. Where applicant is an individual, citizenship is required to confirm whether applicant is Ugandan or non-Ugandan. Where applicant is a company or government entity, the registration number and TIN is required to establish whether company is registered or not. This is verified through integration with URSB and URA.
- **NIN:** NIN is National Identification Number which is Identification for the applicant. The NIN shall be verified through Integration with NIRA to confirm the applicants' details. This is applicable where applicant is a Ugandan Citizen.
- **Passport Number:** This is applicable where the applicant is non-Ugandan citizen.
- **Email and Telephone:** The applicant enters their email address and Telephone number that will be used for notification purposes. The email is used for confirmation of an account created.
- **Username and Password:** The username and password combination is a combination that shall be used to uniquely identify an applicant and allow them to access the system and apply for all building related services.
 - **oTIP:** *A user shall be required to memorize their username and password and keep them secret.*
- When setting up a password, the user is asked to re-type the password to confirm their password.
 - **oTIP:** *Always keep your password secret and do not share it with others.*

Once the above information is submitted, the user will receive both an email and SMS where they are requested to verify within 7days. Therefore, you as the user will use the given username or email and password to sign in.

2.3 Account Validation

After creating an account, the user is required to validate the created account. A validation link is sent to the email given which the user needs to follow to validate and make the account available for use.

May 26, 2021 11:06 AM

Dear Rachael Nantale Norah,

You are Almost there! Thanks for creating an account on the National Building Industry Management System (BIMS) Portal. It's our pleasure to have you on board.

Before you get started, please click the link below to verify your email address (We promise not to send you any spam):

<https://bims.go.ug/accounts/verify-account/6e8e88697fdb74166add0e3b07fcd547e28b7502>

If your account information is not verified by **02nd June, 2021 11:06:26**, which is 7 days from now, it will be suspended.

Feel free to contact us at support@nrb.go.ug for further assistance.

Best Regards,

National Building Industry Management System (BIMS) Team

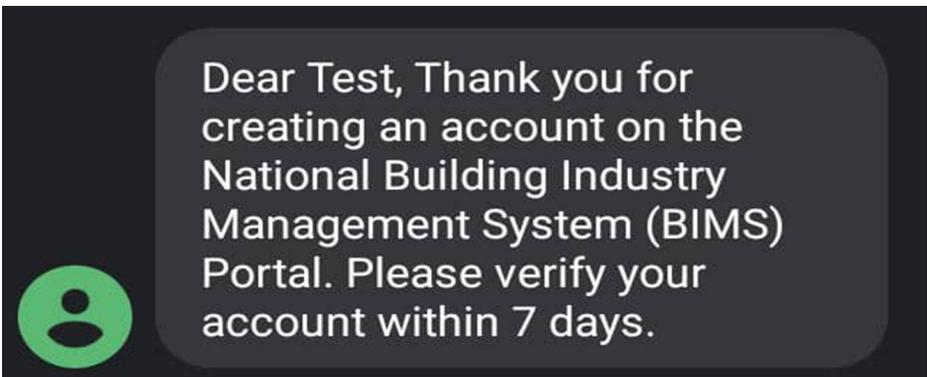

Figure 2: SMS Account Creation Notification

2.4 Click here to submit any tips, complaints or reports

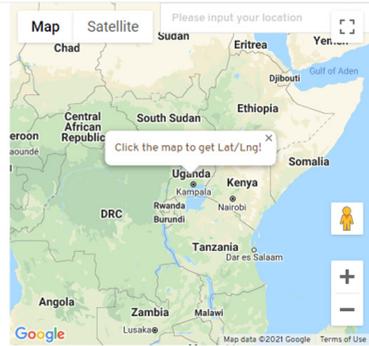

The users are given a chance to submit complaints, reports and any tips without creating accounts. The user inputs name and phone number, which is optional especially for whistle blowers. The GPS coordinates are made compulsory to guide the receiving end on action to be taken. Type of feedback input can either be illegal construction, collapsed building,

accidents or others. The user is further required to put a description or detailed information on the feedback being submitted. All this information is submitted and received at support@nbrb.go.ug

2.5 Logging into the system

After creating and validating your user account, you are required to log into the system in order to be able to perform any action on the system.

The user is required to type the address <https://bims.go.ug> into the web address which will bring a page similar to the one below. You are then supposed to enter your username and password (the ones created in the previous step) then click the sign in button.

END OF MODULE ACTIVITY – 30 mins

- Open your browser and type the web address for accessing the Building Industry Management Information System (BIMS)
- Create a user account on the system (enter correctly all the required fields)
- Open your email (the one used to create the account) and verify the account created
- After verifying the account, go back to the system home page and sign into the account created by providing a user name and password
- Following the dashboard links, answer the following questions
 - How many approved applications are in your account
 - How many Pending applications do you have
- Using the Update account option, please do the following
 - Add another name to your details
 - Change your password

MODULE 3 – MAKING APPLICATIONS

This module covers the core of the work done by those intending to start building/ construction and gives guidance on how one makes applications. Under this module we shall cover the following;

- Making applications
- Verification of professionals
- Making payments
- Attaching required documents

3.1 Making Applications

After logging into the system using the username and password created in the previous module, the user will click on the option for Make New Application which is available on the dashboard as illustrated below.

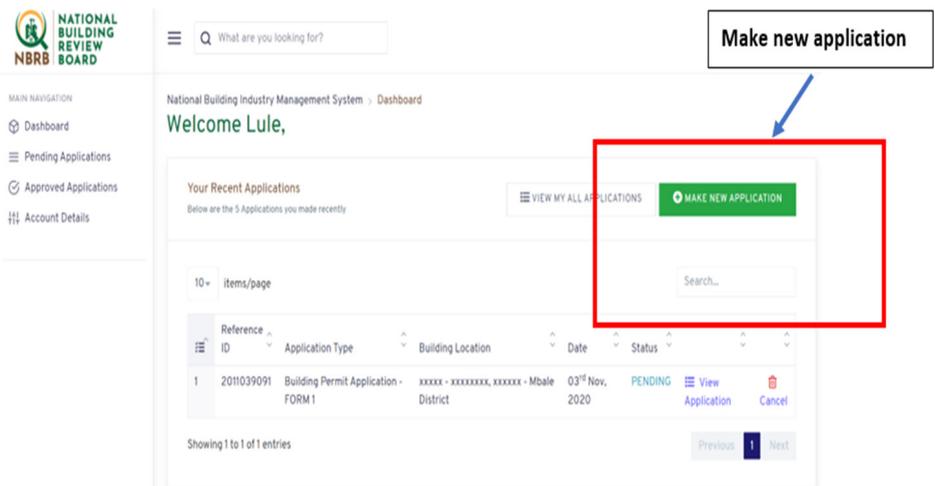

Figure 6: Illustration of the make new application option

After clicking the make new application option, you click on a drop down list which then displays the different applications that one is able to do on the NBIMS.

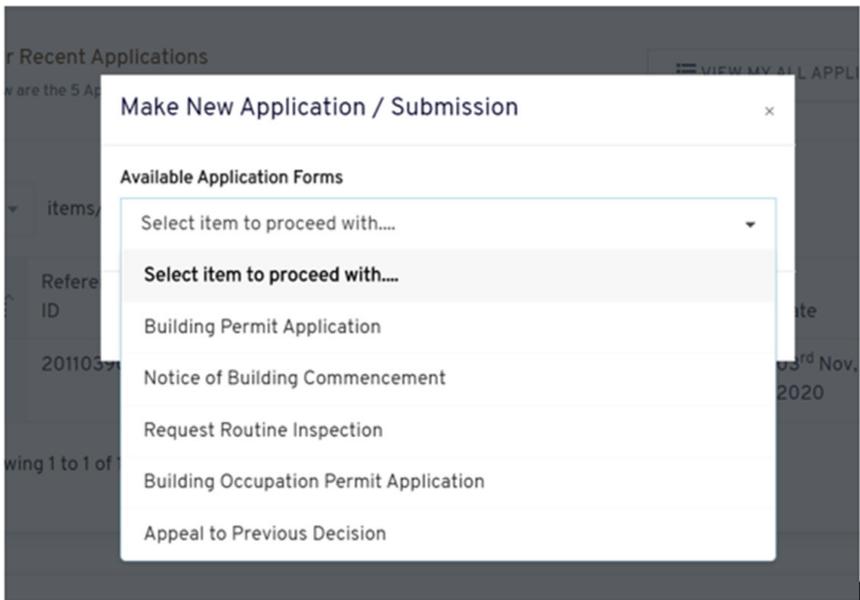

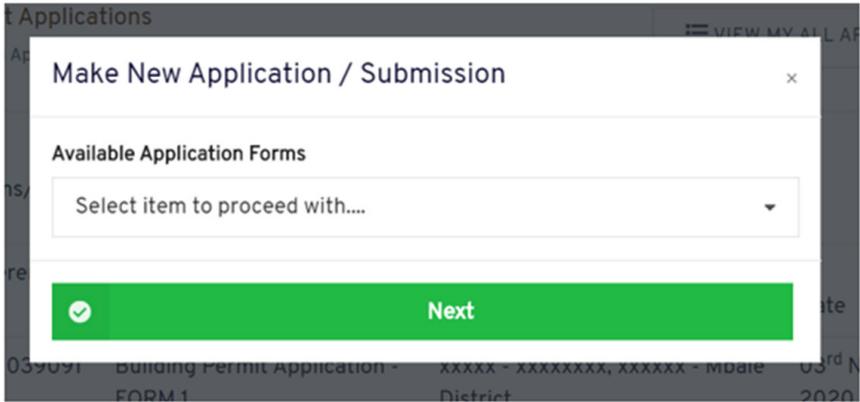

Figure 7: New Application Options

3.2 Building Permit Application

When one wants to apply for a building permit, they choose this option. After choosing to apply for a building permit, they will be required to choose what kind of building they want an application for. Below is an illustration showing the available building permit application options.

National Building Industry Management System > Forms > Building Permit Application

Building Permit Application

The screenshot shows a web interface for a building permit application. At the top, it says "Choose Application Type" and "In accordance with the Building Control Regulations, 2019, I/we hereby make application for permission to carry out minor building works at". There are two buttons: "VIEW MY ALL APPLICATIONS" and "BACK TO DASHBOARD". Below this is a dropdown menu titled "Choose Building Permit Application Type" with two options: "1. Application for Building Permit for Minor Building Works" and "2. Application for Building Permit for Temporary Building, Residential/Commercial Building OR Complex Structure /Public Building".

3.3 Minor Building Works:

Minor building works means a building operation of a single storey dwelling constructed of temporary, semi-permanent or permanent materials such as mud and wattle, mud bricks, burnt bricks, concrete blocks or timber boards and not more than thirty square meters in floor area.

When applying for a permit for minor building works, the applicant is required to fill Building Permit Application Form 1 with the details as indicated below;

- Legal status of the applicant
- GPS location
- Plot No
- Block No
- Street
- Location
- Building size in Square meters
- Administrative unit Type (Municipality, City, District or town council)
- The Administrative unit

3.3 Temporary Building, Residential/Commercial Building or Complex Structure/public building

This application is done using Building Permit Application Form 2 and requires the applicant to provide the information as indicated in the picture below;

The following application key details are required;

- a. **Legal status of applicant:** This allows the applicant to indicate if the application is being done for an individual or company/registered business. For individuals, they will be required to enter their NIN which will be verified with integration to NIRA and for companies, verification of TIN and Business Registration Number (BRN) with URSB and URA will be done to confirm authenticity.
- b. **Applicant particulars:** Names, physical address, Postal address, Telephone contacts

The screenshot displays the 'Building Permit Application - FORM 2' interface. At the top, it indicates the application type: 'Application for Building Permit for Temporary Building, Residential/Commercial Building OR Complex Structure /Public Building'. Navigation buttons include 'CHOOSE DIFFERENT FORM' and 'BACK TO DASHBOARD'. A progress bar at the top shows six steps, with step 1 highlighted in orange. The main section is titled 'Particulars of Applicant' and contains the following fields:

- Legal status of applicant:** A dropdown menu set to 'Individual'.
- Citizen -National ID Number (NIN):** A text input field with a green background, containing the value 'Test Account'.
- Name of contact person (where different from applicant):** An empty text input field.
- Mobile phone (256761000000):** An empty text input field.
- Email:** An empty text input field.
- Postal Address:** An empty text input field.
- Telephone (fixed line):** An empty text input field.
- Mobile phone (256761000000):** A text input field containing the value '256771811380'.
- Fax:** An empty text input field.

At the bottom left is a 'Previous' button, and at the bottom right is a 'Next' button with the text 'Activate Windows Go to Settings to activate Windows.' next to it.

3.3 Notice of Commencement of Building Operations

After being issued with a building permit, the system allows a building permit bearer to log in to the system and confirm when they want to start building. The system checks the permit for validity before the applicant submits request to start building. Therefore this application can only be done when one has an approved building permit since reference is made to the previous permit.

At this stage the applicant is able to change the professionals assigned to the project if there is need to. The new professionals received emails notifying them about the application to commence building operations.
